Gear myself up with vodka and drugs  
And a knife to plunge right in your chest  
I can't wait to see the look on your face  
Asking me why I just took your life  
Carve you up in little pieces  
Feed you to my dog  
And should I feel bad?  
Fuck no

Die cat die, revenge is mine  
Someday I swore I'd make you pay  
And now the time is right

I see your face and you're smiling at me  
Asking me how I've been  
I hate the way you treat me like shit  
I never was your friend  
Crying out, and now you'll know why
