Say goodbye, good day, goodbye, goodbye

Let's walk with our own feet from here on, without
looking back

The road should open up every time when you step out,
so face forward, c'mon

Say goodbye, good day, goodbye, goodbye

Accept everything, the words that advance to the next,
goodbye

Say goodbye, good day, goodbye

I wonder if you're doing your best somewhere, too; so
that I can think of looking forward
To the next time when I'll meet you, we go our separate
ways, but our hearts are connected

I won't ever forget
Say goodbye, good day, goodbye, goodbye

The days that I spent with everyone are all treasures;
I'll remember them forever
Accept everything for the sake of advancing to the
next, goodbye
Say goodbye, good day & goodbye

Because the meaning of she'd tears is something that I
feel in my heart
There's no answer, every time
It deepens so much that I she'd new tears in my color
And like that, I'll walk on

I'm certain that I'll remember about you

If I look back, all things, no matter how small, had
meanings
And now a new world begins again and for the sake of
my own self
Say goodbye, good day, goodbye, goodbye

Accept everything, the words that advance to the next,
goodbyla-la-la
Repeating the encounters and partings, I wonder what
I'll find
Goodbye, good day & goodbye
Goodbye, I'll remember forever

Say goodbye
