You need meat, go to the market
You need bread, try the bakery
You need love
Don't go no further
Just bring it on home to me

I got to love somebody
I got to love somebody
I got to love somebody
Somebody gonna love me

You need grits, go to the grocery
You need fish, go to the sea
You need love
Look for me, Baby
you just bring it on home me

I got to love somebody
I got to love somebody
I got to love somebody
Somebody gonna love me

You need money, go to the bank dear
You need honey, look to the bees
You need love,
Don't go no further
You just bring it on home to me

I got to love somebody
I got to love somebody
I got to love somebody
Somebody gonna love me

I got to love somebody
I got to love somebody
I got to love somebody
I got to love somebody
I got to love somebody
Somebody gonna love me
