Mother help me if I'm to weak  
I'm very easy pray  
A quick study silly puddy couldn't copy me  
Babble bible church recital mighty holy one  
Sittin on the sun looking glassing on  
Lookin on and on and often on the sun

Was I good, Was I good, Was I good for you  
Was I good, Good enough, Good enough for you  
Could I be that dumb to look at you and run  
Standing on the sun cryin on the moon

Was I good, Was I good bad, Was I good for you  
Were you sad, Was I good, Was I good for you  
Sittin on the sun looking on and on  
Looking on and on and often on the sun

Help me mother if I'm to weak  
I'm very easy pray  
A quick study silly puddy couldn't copy me  
Could I be that dumb to look at you and run  
Standing on the sun cryin on the moon

Wish I could see you, wish I could be you  
I'm very easy pray  
A sick study fuddy duddy please untangle me  
Wished I were the one who was on the sun  
If I could reach the sun I'd sing a song to you  
To You  
To You  
To You
