Waited, look inside my brain  
Inside my brain  
It's like a stain  
And have no pain  
And have no pain  
It's like a stain  
It's like a stain

Out of reality Why why want you die?  
Motha fuckin' die!  
Out of reality Why why want you die?  
Motha fuckin' die!  
Out of reality Why why want you die?  
Motha fuckin' die!  
Out of reality Why why want you die?  
Motha fuckin' die!

I want you see me from my tomb

You see my fly makes me bleed  
Makes me bleed (don't)  
What can you see can you see  
That makes me bleed (stop)
