I would like you to dance
Show me that you like it too
Don't ask me why
Don't ask me why I'm gonna die
So get your head up
And fly where the sun shines

What I did was something that came from the heart
Just a new sound
I would like you to jump
Show me that you aren't dead

So listen, close your eyes and fly
Fly to where the sun is shining
Where songs are palying
Where happiness rains
Because it's there where you're free
Just take a look around
Turn like a twist
Watch the deep images of your dreams
That glance through your head
