Ye-ye-yeah, and it goes, that's my cool and I can't
take it off

[I-I-I'm, far too cool, le-le-let's talk bo-bo-bout
tha-that]

Ye-yeah, and it goes, that's my cool and I can't take
it off

[I-I-I'm, far too cool, le-le-let's talk bo-bo-bout
tha-that]

Throw something to me, feel it in the air

Ca-can't put my finger on, but it's right there, the-
there

Next to the shades, next to the colors of my shoes

And the daters on my waist,

Yeah, ki-kid ain't never seen it like this

No-not the way you look at me it's so electric

Co-co-could have go whenever but I made it fit

Now they're watching my moves, we in to play that shit

Nobody belived it til' I made some crosses

And I ain't never once pulled my pants up on me

Only thing I did was write beats, that's cool

Now everywhere I go people still wanna know

So I keep it on me like it's nothing

They say the kid from Tensta got something

I say I don't know what can that be

The-the-they say the cool is all over me-me-me

Ye-yeah, and it goes, that's my cool and i can't take
it off

[I-I-I'm, far too cool, le-le-let's talk bo-bo-bout
tha-that]

an-an-and it goes, that's my cool and i can't take it
off

[I-I-I'm, far too cool, le-le-let's talk bo-bo-bout
tha-that]

They keep tellin' me it's in the man, what?

Did you really think I'd think about that? Not at all

A-a-always been this, never been a chaser

Only difference is a dude in the paper

Keep it on my suffer my TV the other day

Annie to the T to the V you get me

Momma look happy in the video you did

Tha-that means more to me than this other shit
I can do whitout a come cool on the subway
Milkshake came expect that money
How you gonna say that this nigga don't shine?
Must not have listen to my words or he lying
But when I said a couple of lines, back up
Di-di-did I say something that you gonna hate
Wh-wh-what? I must have did that really
Am I that cool man you can't even feel me?

Ye-yeah, and it goes, that's my cool and I can't take
it off
[I-I-I'm, far too cool, le-le-let's talk bo-bo-bout
