Whatever you do  
You'll always be a shit  
Cause you sold friends  
That trusted you  
Look in the mirror  
In your fucking face  
Couldn't hate yourself  
You are just  
Traitor and coward, informer  
You make only filth  
I've got no words,  
But just deed

I'm gonna strike  
Your brain will explode; it's time to  
Kick to the ground  
Now, to fell we  
I'm gonna strike  
Don't looking around its time to  
Kick to the ground

You've changed your mind  
You've changed your soul  
Now you have become  
Sexual deviant  
Where is your honor?  
Where is your pride?  
I'm feeling aversion to you  
I hate you, I fuck you, and I vomit on you  
You weren't a friend  
Just dirty scum  
Just dirty scum
