A few thousand man over the world
Brothers in Europe and in the USA
Yeah, that is declaration of the war
Call it what you wish,
This time to take your side
Call it what you wish,
This time to take your side
Come on racial comrades;
Let's start to fight!

What have you done to the cause?

I their eyes you don't see the fear
They'll never turn back,
They'll never give in
Feel a brotherhood to common aim
Join to our ranks or at once die
Join to our ranks or at once die
The walls tumble down,
When you hear our voice!

Racial holy war - let's start to fight
Racial holy war - this our voice
Racial holy war - don't need cowards
Racial holy war - let's ring the bells
- let's ring the bells
