Long time ago  
You wasted soul  
Living no ideals  
Vegetation till your fall  
Loving mom, yours daddy's rich  
School gave you helping hand  
If you stayed out of trouble  
None punished you for mistakes

Unquiet wind is coming  
Better take this chance  
If you don't want die no name

Twentieth One Century  
This time for change  
Last time for changes  
Rebuild your mind  
Before you lost

It wasn't hard  
You got such start  
Lost friends, bad company  
You finally fallen to the down  
Once upon the time  
When you woke up on the floor  
Did you fell a pain  
deep inside your heart  
Cause you got no who you are?

Unquiet wind is coming  
Better take this chance  
If you don't want die no name
