Look around and tell me what you see?
Our foes are laughing, standing on the top
They took our country, we got put in chains
Now occupation is reality

Born, Born again arising!
Born, Born again arising!

They plan is simple, to destroy our land
Speaking lies they stabbing on our back
They have no faces but we know who's they are!
If you trusted them you'll be lost

Call for justice, call for our rights
Standing high, your banner shall be flying
Steel our weapons shinning in our hands
Hatred boiling, now is pay back time!
