If I could change your mind
Persona be denied
If only time was on my side
I would kill
To hold you in my arms again
My walls are slowly caving in
Is this the progress
That I've made

Softening glances
Are nothing but a lie
I've wiped the blood and sweat
From my face
I'm past the point
Of convincing you
To live your life with me

So
I've learned to live without you
I'm on my own
Your empty antecedents fill and spill
Upon the pages
Before him shall you kneel

If I could turn back the clock
I'd fix my mistakes
If the hourglass had tilted
You'd still be mine
I'm slowly giving up on love
My heart's not where it should be
Descend upon blackened wings
I will forget

Softening glances
Are nothing but a lie
I've wiped the blood and sweat
From my face
I'm past the point

Of convincing you
To live your life with me

I've felt this all before
(Disregarding what I've felt)
And I've never wanted you more
(This is my darkest moment)
I take it out on myself
(Even though I know it's you who caved)
Underneath it all

Don't try and fake a fucking thing
Your eyes deceive the picture
I've held onto your shaded words
No more
It breathes it bleeds it breaks until the end
Innocence masked by a burning flame
The nuisance rising to a higher plane
Dissolved

Disregard everything I've felt
I've never wanted you more
I take it out on myself
It's over

We all hope for change
Sudden disclosing
I wish you would never leave
But it's too late now
Looking back's not the answer
Living in regret
You think I break so easily
You're mistaken
