"Do You Love Me Still?"

Visit "[Do You Love Me Still?](#)" on MotoLyrics.com

I have thought that you have come back lately
To take my soul away from me
'Cause when I see you, you rip my heart out
But all the same, you're not to blame

Baby, baby, I love you still

But I need your heart beating next to my heart
In love I am
Yes, I need your heart beating next to my heart
In love I am

Do you remember how I met you, child?
I was down and I fell for you completely
When I wanted your heart and
You didn't want me, now you did, but now you did

I need your heart beating next to my heart
In love I am
Yes, I need your heart dancing next to my heart
In love I am

Baby, do you love me still?
'Cause I miss you, I miss you
Baby, I miss you
