Say it's just right, when you're around
Take a drive, take a drive to town
Meaningful, nothing but you
Petulia, you're in my blood again
Like a heart undone
Like a love without a sound
Like a heartbeat
Moving through me

Says it's just right, life on my brow
Take it low, take a drive to town
Meaningless, everything but you
Petulia, let's make a wish

For a heart undone
A love without a sound
Like a heartbeat
Moving through me

Like a heart undone
Like a love without a sound
Like a heartbeat
Moving through me
