Girl I wanna be good to you,
I never wanna do you no harm,
I'm caught up in this fascination,
Helping with your alarms,
Ignore life if you want to babe,
Do what you've got to do,
I need some time in the countryside,
I wanna feel so brand new,

You make me runaway
You make me runaway
You make me runaway angel
You make me runaway

Runaway

I see your name on the walls again,
I painted you on my toes,
Celebrate the resuscitate,
We drink to ourselves,
You collect lovers like gem stones,
You talk of them as your friends,
Dangle me from your wrist chain,
Another one lost to the winds of change,

You make me runaway
You make me runaway
You make me runaway baby
You make me runaway
runaway

Still I try to be good to you,
You'll always be my friend,
I need some time to define my mind,
I wanna be someone new

Why don't we run away?
Why don't we run away?
You make me runaway angel
You make me runaway

Why don't we run away?

You make me runaway baby
You wanna runaway
You wanna runaway
