Dave save our humanity  
'Cause only you can see  
The tale of our history  
Dave save our humanity  
'Cause only you can see  
The tale of our history  
So out of control  
When truth is told  
Nobody knows  
Dave save our humanity  
'Cause only you can see  
The tale of our history  
Dave save our humanity  
Are we the enemy  
Spreading insanity  
So out of control  
When truth is told  
Nobody knows  
Dave  
(Guitar solo)  
See us from the skies above  
Man was born only to love  
Right our wrongs to God above  
All are one not them or us  
Teach a lesson hard to learn  
Precious gifts cannot be earned  
In our hearts the seed of trust  
Torn away by greed and lust  
Let the children go where the wild winds blow  
Leave our seeds to grow brave new world to know  
Only love will sow only peace can grow  
Let the children go save the children  
Let the children go where the wild winds blow  
Leave our seeds to grow brave new world to know  
Only love will sow only peace can grow  
Let the children go save the children  
Save the children  
Save the children
