Night people, oh, oh  
People of the night

I wanna talk about the night people on the street  
You can be sure that you're gonna meet  
Night people out for a midnight dream  
After the lights have gone down, yeah

Late at night there is a feeling of pure delight  
That's when the night people meets their height  
When all the lights have gone down, yeah, yeah

(Night people, oh, oh)  
Are you one? Do you dance in the street  
Just like the people of the night?  
Yeah, you see they're dancing, romancing

(Do you know that night people, oh, oh)  
Are you one? Do you dances like those?  
(People of the night)  
They will always be bound  
When every night comes around

Mystery flows through the air  
On a tempting breeze  
Urging the night people loud and free  
After the lights have gone down, yeah

Music plays up until morning, they all will stay  
Night people dancing the night away  
When all the lights have gone down, listen baby

(Night people, oh, oh)  
Are you one? Do you dance in the street  
Just like the people of the night?  
Yeah, you see they're moving and grooving

(Do you know that night people, oh, oh)  
Ooh baby  
(People of the night)  
Do you know that

I see you come alive, baby  
In the starlight, every single night  
Your face is like the moon that's shining  
Makes me smile and feel alright

At midnight there's a love bite  
Love is the feeling in the air

(Night people, oh, oh)  
Yes I'm one, I like to have a lot of fun, yeah  
(People of the night)  
Moving and grooving with the night people  
Every night

(Do you know that night people, oh, oh)  
Did you know? You see them out on Broadway  
(People of the night)  
Dancing the night away, oh
