[Kool Keith:]

Yeah, that's real (I've got all the candles lit)  
Kool Keith baby, from the Bronx, New York  
You know I miss you right?  
I really care about you, more than any other woman in  
the world  
This is what I really like to do  
(I've got all the candles lit)

Girl I'ma hold you, let you know  
I'm the one... to give you the delicate fun  
What is it like to look under the candlelight wit'cha hair  
done?  
Baby you outta sight, jeans are tight  
He'll hit you in the eye I'm sorry to hear that  
You and your man had a fight, hold your head up don't  
cry  
Everything's gonna be alright, you said it was violent  
and domestic  
The tenth time you got him arrested  
You used to look better than that, your black eyes got  
affected  
The cops by your apartment neighbors hear you in the  
argument  
You think it's you and nobody, know where your lover  
went  
Ever since, he broke your arm  
Your right rib cage, girl you're somethin else  
Let me make a cup of coffee  
Here's some hot chocolate, off the shelf  
You're nervous, stop shakin, grab ahold of yourself  
Everytime you call me you wanna kill yourself  
Overtakin prescription, this ain't no science fiction  
Girl wanna kill herself

[Chorus: Keith singing]

The girl wanna kill herself [x2]

[Kool Keith:]

Girl wanna kill herself (I've got all the candles lit) brain  
by the window  
Your body hurt with pain you hide from the police

department  
Callin us every night when he sleep  
Let a man in front of your kids beat you up on the brain  
He drove you to drugs like a battered woman takin  
novacaine  
Some guy, that keep you in the basement like a dog on  
a chain  
Scared you to death, now you look at everybody  
strange  
Detectives put they head down, it's like workin with a  
puppet on a string  
Your girlfriends complain, 'Tisha say you got blood all  
over your thangs  
You handlin what you did, you slept with him for  
diamond rings  
Circles around your eyes, look like pies  
You wanna overdose, stop tellin us lies  
The girl wanna kill herself

[Outro:]

The girl wanna kill herself (I've got all the candles lit)  
Girl wanna kill herself  
Girl wanna kill herself, girl wanna kill herself  
The girl wanna kill herself (I've got all the candles lit)  
Baby don't kill yourself, cause I need you  
I know you've been goin crazy  
I'ma be there for you, you know I'm your psychiatrist  
I just don't want you to kill yourself  
Cause you hurt me when you do that  
The girl wanna kill herself  
She wants to kill herself  
The girl wanna kill herselfllllllllf  
Don't kill yourself... [fades]
