[Kool Keith]

Raising levels Jim  
Flight seven oh four three two one, red four  
Green expanding to one  
Moving levers up at seven decimal eight  
Moving two point liters down  
All systems go, red lights are off  
Greens are showing  
Coming through

Levels shifting get swift on analog sounds, pounds of  
rocket tars  
Microchips incredible antibiotic medicine, better than  
Octo  
Although created by the master genius  
You seen this when I take your mind out to Venus  
With the formats on DAT tape you can't remake or  
duplicate  
Hesitate for a minute on deck like Brenlee Stinnit  
Pittsburgh Pirate, admire it, you can't hire it  
Job applications for rappers with weak shows  
Weak flows, by most inherited weakness  
You can't stop my uniqueness  
Complication altitudes built in compartments  
Digital gizmo made by Continental Lincoln keepin you  
thinkin  
Better made than European's robot John H. Thomas  
Model seven decimal put out by Jaguar  
without the automatic chemical release  
emergency vomit regurgitates any system  
Regular or even more antique products, put out by top,  
companies  
MCA Warner Brothers Loud the Polygram enterprise  
Virgin masters get melted, you felt it  
through my radiation, foes move on buses  
Planes leave the train station, evacuate quick!

Mechanical legs, mechanical legs

Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
(Now, meow, blah!)

Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
(Goin wild with our sound now!)  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"

Release date M6, photographs on Columbia/Ruffhouse  
description green  
with blue ears sky blue shirt that work by remote  
controls  
Burn up Billboard charts, deactivating 1975 music, old  
soul  
will never go gold, while records warp  
Insulting your duplicating of a sample  
You will become an example, uncreative peasants  
by the lessons of the untalented ones

signed by your most stupidest A&R  
We'll see how far representation information  
Documents while I stand like monuments  
Stun your area like a airborne carrier  
United Parcel deliver parts for a start  
Cold blooded with a mechanical heart, standin like the  
Tinman  
Aluminum kneecaps release raps like rayguns,  
destroyin territories  
Toys, pterodactyl dinosaurs get bombed in space wars  
Layin on galactic floors, amputated, disconnected  
collections  
in more than, fifty seconds, warehouse with skulls  
Land amphibians, welfare recipients  
with beautiful women from the Carribean  
The ships need repair

Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"

Not compared to no rappin high flight, member of the  
A.S.S.R.  
Immigrants stand in factories, endorsements, six MC's  
You seen what The Source meant  
Cover stories from the government left you standin  
holdin the mic with one hand and

handicapped with damage you can't manage style  
nine-nine  
2000 B.C. the sneakers in spascious me in 3-D  
Wireless radius, MC's outdated, completion deleted  
Japan newspapers in Australia, did you read it?  
Over and out, movin with swift celsius, I melted him  
down  
Jet movin up, level seven seven six oh  
with Darth Vader and 3P0  
R2-D2, me too, comin to see you

Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
Rockets on the battlefield  
"Tango three left turn ahead, taxi to port control seven"  
"Tango three left turn ahead, taxi to port control seven"
