[Kool Keith:]

Sexy girl!

Okay-double-oh-L, Keith

Sexy girl! Sexy, sexy~!

Sexy girl! Sexy, sexy~!

Sexy girl!

Sexy girl in sheer panties, I'm the driver in your life

I love to steal panties, the more closer you are near
panties

Observin your home amateur VHS tape

I love the around the house motion pictures you make

Your neighbor with whip cream, your legs smeared with
Duncan Hines

Your thighs meet my fingers, I taste the thing

The fudge, the great chocolate cake, Niagara Falls is
not needed

I'm above the swimming pool dressed up like Dracula

I'll bite your neck by the lake

The script's a natural, I can't beat Paramount Pictures

The backdrop behind Capitol Records is fake

Girl you're beautiful, how do you control your weight?

(How do you control your weight?)

Sexy girl! Sexy girl! Sexy, sexy~!

Sexy girl! Sexy, sexy~!

Sexy girl!

Home alone, touchin yourself in different places by the
phone

After midnight the blacklights flow you're in the love
zone

The microphone adjusted to the love tone

Keys to your heart, you've now completed the task

Gimme the secrets to your combination, the captain
and the boss

Got your bra in my hand, the guidance counselor, your
life I own

Your official support, every time you cry and moan

I brought the freak out of you, the way you neck the
leak out of you

My desire for you ain't false, everything I write about is

true
Your favorite singers are old to me
They're primitive, stuck in time, I'm brand new

Sexy girl! Sexy, sexy~!
Sexy girl! Sexy, sexy~!
Sexy girl!

Over and over, don't get me wrong
While you walk around and pace the floors in your satin
thong
between the sheets - you have the electric feelings
reach
Pullin my lips to your fruits of passion
Two pineapples in my face, my tongue taste the tip of
your peach
I send flowers to doors, UPS packages circulate the
streets
When I celebrate the victory, Jergens lotion glaze your
feets
With my hand palmin each bun, I'ma show you girl
The police officer badge, the uniform and handcuffs
will make you have fun
Kneel down to your kitten bowl
Your rearview is awesome, I watch the lips unfold

Sexy girl!
Sexy girl! Sexy, sexy~!
Sexy girl! Sexy, sexy~!
Sexy girl! [echoes]
