Whassup baby?

C'mere let me feel your pussy a lil' bit

Turn around, that's right

Let me see that pretty ass

Lean over

Let me put a little grease in your ass

Knahmsayin baby?

Fine ass bitch

Bitch let me see one of the titties

Hit you in the face with one of these fitties

Watch pictures, pass out

In the leather sofa with the ass out

Piss in your pocketbook

With a patch over my eye like Captain Hook

Fuck all the romance and love books

Still they help your pussy like a crook

Break you down to the name of your asshole

Connected to the Chevron station and the gas cable

Motherfuckers cooperate, don't be hateful

Lotion your ass up, you're ungrateful

Take a shit in the underground picture

Make it commercial

More tasteful, parental advisory

Clean your vagina with ammonia and ivory

Piss in your face

Piss in the right place

Piss in your face

Piss in the right place

Raisin mutilation

Reynolds and Wrap, Tupperware

New Jersey sexy shit

Hype nipples, eatin your own defecation

Vicks in my nose

Sniffin glue while you smell ass

I specialize in bitches who communicate, and sell ass

If I'm upset, I get a ride and tell ass

Put your ass in a butt cast

Fingerpop you with my Jason mask

You can't sleepover and crash

Ginseng up yo that's right
Everybody's gettin pissy, with chronic and hash
Waterbed and the table
Leave urine in the back of your Taurus Sable
Tie my underwear to the back of your car
Spray your ass with
Dress you up and grab the Vaseline jar

Piss in your face, girl you know
Pissin in your face, pissin in your face
Pissin

Your eyes feel my dick in the dark
Part of your bathroom, you think I'm sick
I fill the soggy shit and you split
Over 40 to 50 plus
Old bitches who smoke PCP and dust
Fuck the lust, pour milk on your Bally with Orange Crush
Cover your asshole with a Slurpy slush
Orgy over here, that's right they doin it over there
But I'm the director with a camera, everywhere
I'm the photographer, Jim take pictures
Yo, y'all be first, cause there's seven of us
And I'm not gonna do this
I'm gonna get through this, and do this like Brutus
Taking pictures
Photographers, Nikon and Pentax
