All night
On, on, on, on, on, on
All night
All night
On, on, on, all night
All night
On, on, on, on, on, on
All night

It's about time for some action
I'm hot as a tamale on fire
I need more than a physical attraction
'Cause lust is a weak desire

A woman without a good head on her shoulders
Is nothing but a piece of meat
For that I'll go to the butcher store
'Cause I'm choosy about what I eat

The body is a mere appetizer
And the brain is the real main course
The personality is like the icin' on the cake
The sweet magnetic force

The completion of any kind of coffee
Makes my percolator perk
And once I taste the coffee
I'm up, so get ready to work
All night long

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on
All night

How many ladies are deep enough
To handle a man like me?
I mean mental, emotional and physical
I like my women deep

I like 'em hot-blooded by nature

But not promiscuous
A women who can relate to
Being spontaneous

And yet, I like 'em old-fashioned
Updated with a modern day twist
A woman that's a slave to a passion
But knows when to resist

I like a woman that's not so public
'Cause no one needs to know
And if you can respect my privacy
Then forever, we're good to go
All night long

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on
All night

Scintillating, sultry, stimulating, sexy
Super, subtle, smart and seductive
Sensitive, serious, succulent, sensuous
Softly saying she loves this

Kind of mental stimulation
That's causing body heat
Visually anticipating
Makin' love in between the sheets

Now, I can't stand a groupie
But I'll always love a true fan
Someone ready to do me right
Once she knows the man

I admit, I love it in public
'Cause it's cool being Kool Moe Dee
But behind closed doors, I get the applause
For just being plain old me
All night long

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on
All night

I never like to make the first move
I'ma rapper but I don't rap
'Cause when it comes to the ladies

I'm much too smooth for that

I love a women with a good sense of humor
For me that's very essential
Uninhibited and very deep
I mean someone I can really get into

And once I get into you
I can feel if you're for real
And right is how I'll do you
I'll give you something you can feel

It's like a romance from a storybook
Without the wine and candles
An encounter you'll never forget
But don't try it if you can't handle
All night long

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on
(All night long)

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on
(All night long)

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on

All night, all night
On, on, on, on, on, on
All night, all night
On, on, on, on, on, on
All night
