Good For You
(By KooLTURE)

It comes so easy as easy it goes
That's a rule that everybody knows
We fought so hard to protect this dream
And now you say you're finishing with me

Chorus:
Come to me, my love is good for you
You know my love is true
And I know you love me, too
Come to me, my love is good for you
You know my love is true
And I know you love me, too
Yes, we were one only heart
Beating even from the very start
No-one liking the thing we shared
But above all that, we did it we dared

Chorus

I care for you, you care for me
I care for you, you care for me
I care for you, you care for me
I care for you, you care for me

Chorus x 2

Here we go now
Here we go now
Here we go now
Here we go now
