Hey, Summer Sun
You always smile
Clouds in the sky
You never mind
Happy or sad
You always shine
Never before
I've met your kind

Love had never got a hold on me
Until you stepped out of a dream
My life once a misery
Now your love has set me free

Hey, Summer Sun
Your love's divine
Never before I've met your kind
And now you're mine

Hey, Summer Sun
You always smile
Clouds in the sky
You never mind
Happy or sad
You always shine
Never before
I've met your kind

Love had never got a hold on me
Until you stepped out of a dream
My life once a misery
Now your love has set me free

Hey, Summer Sun
Your love's divine
Never before I've met your kind
And now you're mine
