Yukumi Nagano :

So we are astray  
There's nothing else to do  
In another place  
I see a different you

'Cause we  
We left and lost again  
I'll never love again

Oh, baby now we are apart  
There's nothing we can do  
In a different place  
I see another you  
And in another place  
I see a different you

So we are astray  
There's nothing else to do  
In another place  
I see a different you

'Cause we  
We left and lost again  
I'll never love again

Oh, baby, now we are apart  
There's nothing we can do  
In a different place  
I see another you  
And in another place  
I see a different you

Oh, we left and we lost  
I'll never love again
