We never give up our cultures blood
And he was an only son, but now he's the only one, and
it saddens me to say
And he loved the swarming race, but now yes he loves
this place
We never give up our cultures blood
No we never give up on our culture, cos when a
cultures lost, another cultures won
A culture you cannot deny, yeah
Yeah, oh
We will never give up our cultues blood
We will never give up, we will never give up on blood
No we never give up on our culture, cos when a
cultures lost another cultures won I said we never give
up on our culture, cos when a cultures lost another
cultures won
I said we never give up, we never give up on blood
Never give up on blood
