Your Egos all I can't stand right now
It's like this beast that doesn't come out
You think she's there just for you
I hope you know, I love her too
You say let go, I say I won't let her go
To someone like you.

No more childish games, our mothers don't dress us
for this kind of thing
We are both men with guns
Lets use them, lets use them just for a bit of fun
They both put in blanks just like the other ones
(no they're not dead it's just filled with blanks)
I've been chasing bears with all sorts of stories to share
I swear these carnivals don't keep them in touch
(I'm sorry, I'm sorry)
I'm sorry for, Chasing you down with a doubt you ever
really came through
I'm sorry for, I'm sorry for, I'm sorry for thinking
wrongly of you.
I swear, I'm so sorry for thinking that of you
I've been chasing bears with all sorts of stories with
your face in them

Your Egos all I can't stand right now
It's like this beast that doesn't come out
You think she's there just for you
I hope you know, I love her too
You say let go, I say I won't let her go
To someone like you.

I'm sorry, I'm sorry
