Say something, anything right now
You know I'm choking on how bad it hurts
To say goodbye
Trust in the words I say to you
It's killing me to see you desperate
Believe in what you want

Just tell me how long it takes
Until I'm in the right place

Here we go again
I'm happier without this left behind
But it's all over now
Ready to go, ready to go, ready to find a way some
how
Ready to go, ready to go, ready to leave it

Say something anything right now
I know you're choking on how bad it hurts
To let us go
Cry yourself asleep again tonight
Write a note sent with your love from everyone,
everyone

Just tell me how long it takes
Until I'm in the right place

Here we go again
I'm happier without this left behind
But it's all over now
Ready to go, ready to go, ready to find a way some
how
Ready to go, ready to go, ready to leave it all behind,
all behind

You build me up, can't break me down
I'll find a way to leave this town
And nothing good you'll ever say
Will stay with me, please stay with me

You build me up can't break me down
I'll find a way to leave this town

And nothing good you'll ever say
Will stay with me, please stay with me, stay with me

Here we go again
I'm happier without this left behind
But it's all over now
Ready to go, ready to go, ready to find a way some
how
Ready to go, ready to go, ready to leave it all behind,
all behind
