"Wish You A Merry Christmas"

Visit "[Wish You A Merry Christmas](#)" on MotoLyrics.com

Snowflakes falling
The old year slips away
Can't we make a new start
A new start from today
A new year dawning
In the deepest of night
Waiting for the morning
In the candlelight

Wish you Merry Christmas
Wish you all a good new year
Time now to remember
We can keep life free from fear
When Christmas time is over now
When the party's done
Let's keep in in our minds somehow
The world's for everyone

What kind of world the new year brings
It all revolves on you

Wish you Merry Christmas
Wish you all a good new year
Time now to remember
We can keep life free from fear
When Christmas time is over now
When the party's done
Let's keep in in our minds somehow
The world's for everyone

Wish you Merry Christmas
Wish you all a good new year
Wish you Merry Christmas
Wish you all a good new year
All a good new year
Have a good new year
