So I think you are a fool
Hanging on my every word
It's getting ugly
So I'm ugly

Tear me from your heart
Tearing me apart

So I thought you disappeared
Being alone is what you fear
Are you lonely?
Yes lonely

Tear me from your heart
Tearing me apart

Rolling
And throwing
Consulting
Everything that goes this far
Joking
And Hoping
Revolving
All that shit that's who you are
Hoping
And scolding
Revolving
Peel it back
Reveal the scar
Loathing
Exploding
Controlling
This is what you really are

The time is coming
IÂ've gone insane
You're really happy
YouÂ've won the game
The time is coming
I get the blame
Your life is over and you're to blame
The time is coming

You've gone insane
You're really happy
You've won the game
The time is coming
I get the blame
Your life is over and you're to blame

Rolling
And throwing
Consulting
Everything that goes this far
Joking
And Hoping
Revolving
All that shit that's who you are
Hoping
And scolding
Revolving
Peel it back
Reveal the scar
Loathing
Exploding
Controlling
This is what you really are
Rolling
And throwing
Consulting
Everything that goes this far
Joking
And Hoping
Revolving
All that shit that's who you are
Hoping
And scolding
Revolving
Peel it back
Reveal the scar
Loathing
Exploding
Controlling
This is what you really are
