Why can't you ever back down?
Why can't you just shut your face?
Oh god, the feelings I feel
Would get me thrown in a cage
You're the one who's always screaming at me
I'm the one that keeps your lives so care free
What the fuck more do you want me to be?
Why must you do this to me?

Run away
I can't stay
Lead the way
Make them pay

Counting on me
Always hoping I'll be
Therefore I have your problems
And turn you're never there for me
You suck the life out of me
You hate everything you see
I can't take this anymore
I always stay when I should leave

You see the pain in my face
While you keep putting me down
Inside the rage starts to build
You push me I won't go down
You're the one who's always screaming at me
I'm the one that keeps your so lives care free
What the fuck more do you want me to be?
Why must you do this to me?

Run away
I can't stay
Lead the way
Make them pay

Counting on me
Always hoping I'll be
Therefore I have your problems
And turn you're never there for me
You suck the life out of me

You hate everything you see
I can't take this anymore
I always stay when I should leave

Could it really be that day, today?
Could this really make the problems go away?
I'm gonna hurt, just not this time

Right now!
I take in all I can now
Right Now!
You've torn us all apart
Right Now!
There is nothing you can do to stop me

Right now!
Right now!
Right now!
Right now!
Right now!
Right now!
Right now!
Right now!
Right now!
Right now!

Counting on me
Always hoping I'll be
Therefore I have your problems
And turn you're never there for me
You suck the life out of me
You hate everything you see
I can't take this anymore
I always stay when I should leave
Counting on me
Always hoping I'll be
Therefore I have your problems
And turn you're never there for me
You suck the life out of me
You hate everything you see
I can't take this anymore
I always stay when I should leave
