For No One

I'm getting out  
I'm leaving here  
I'm kicking right through this door  
I stole your girl  
Who was my girl  
I always said she's a whore

Clutch to accelerate  
From everything I hate  
Now this is my kind of disaster

Break in and take what we want  
And then burn down liquor store  
Pick up our friends  
Tell them it's on  
Get in  
Don't ask what it's for

Sub-Woofer kicking in  
Porn on the TV screen  
These spinning rims don't go no faster

We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the light  
And we're not gonna stop for the pigs or no one

We're flipping off the people  
Who dissed on us, that's yesterday  
We're throwing' bricks right through their windows  
And then we drive away

And break this thing around  
New things I could of found  
We keep on changing our direction

Go past the school, the church, the places that caused  
us hurt  
We're gone  
If we keep moving forward

Maybe we'll forget where we're from

We're gonna shake things up  
We're gonna break it down  
We fill this car with our rejection

We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the light  
And we're not gonna stop for the pigs or no one

You can never go back not even  
If you wanted to  
No way, you're in deep now  
You've been fucking up real good lately  
One minute you come from zero  
Go now

We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the light  
And we're not gonna stop for the pigs or no one

We can drive all night  
And we're not gonna stop for the pigs or no one  
Just follow the light  
And we're not gonna stop for the pigs or no one
