Walking alone inside my world  
Thinking I'm doing the right thing  
Destroying all that appears before me  
It was all done...in vain

Wanna get through fire  
Wanna get through pain  
Wanna get with violence  
Wanna get with shame

Digging this place to call my own  
Raping my body without a face  
Tortured my soul is black as pitch  
And I have no life to waste  
Wanna get through fire  
Wanna get through pain  
Wanna get with violence  
Wanna get with shame

I wish you'd do  
Do anything  
So lost and helpless  
I played your game

I wish you'd do  
Do anything  
So lost and helpless  
I played your game

Wanna get through fire  
Wanna get through pain  
Wanna get with violence  
Wanna get with shame
