Put your hand against your skin / rub it gently to begin
You feel it? Can you feel it?
Witness pleasure become pain / When does sex
become insane
You say it, as you feel it

When you cum (Be a good girl)
Hold your breath (Make it last long)
It's a mess(And it's called)
The Little Death Girl

(Chorus:)
So please, When you die could you scream?
Mercy, Mercy for you and me
Its true What they say, fuckin' for
Love might be the last legal drug
So please, When you cry let it flow
I might, Make you stay, let you go
It's true, What they say, fuckin' for
Love might be the last legal drug

Push that one more time that's all / And the rain begins
to fall
You feel it? Can you feel it?
People who ain't seen shit been telling you that it's a
sin?
You say it, As you feel it

When you cum (Be a good girl)
Hold your breath (Make it last long)
It's a mess(And it's called)
The Little Death Girl

(Chorus)

Le petite mort

(Chorus)
