Run away nowhere  
Two chicken chicks, two things  
I'm gonna go there  
The fear I cannot taste  
You think you got me  
(You laugh)  
You're gonna tumble down  
(You laugh)  
Keep coming for me  
(I'm done)  
I'll drop you on the ground  
I fuck with no one  
Until you get in my face

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

You're gonna feel how  
(Alright)  
I really am with you  
(You're right)  
You're goin' no where  
(Must stop)  
Don't really know what to do  
(You're right)  
It's gonna go on  
(Fuck off)  
Until you run away  
(Away)  
You can't control me  
(You won)  
You best do it my way  
I fuck with no one

Until you get in my face

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

Don't you know that you can punch me?  
Don't you know that you can bring me down?  
Oh, my life would be so easy now  
If you hadn't stepped across that line, line

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now

Break you down  
Mercy, I cannot allow  
Through your face my fist will plow  
Watching as your blood rolls down  
Let's do this now
