I read your little book and... ha ha ha ha ha ha ha  
I read your little book and... ha ha ha ha

You need a reason to believe  
A reason to deceive  
A reason for the song you're singing (ha ha ha ha ha)  
And everything you do  
Makes perfect sense to you  
So why is your alarm bell ringing

You say you know how it feels inside of me  
Lost and alone with no love or luxury  
Come on inside  
And hear the silence constantly judging me  
Don't you think you should move on?

I know that you're so fucking lonely

You need a way to get along  
A way to carry on  
A symptom for the pain you're making  
And surely you should know  
That everywhere you go  
There's acid in the words your faking

You say you know how it feels inside of me  
Lost and alone with no love or luxury  
Come on inside  
And hear the silence constantly judging me  
Don't you think you should move on?

You write it, so you'd best believe it  
You sold it, now your soul perceives it  
You read a book, but now agree with it  
The damage of betrayal  
To Hell with the...

Reason to believe  
A reason to deceive  
A reason for the song you're singing  
And everything you do  
Makes perfect sense to you

So why is your alarm bell ringing

You say you know how it feels inside of me  
Lost and alone with no love or luxury  
Come on inside  
And hear the silence constantly judging me  
Don't you think you should move on?  
Don't you think you should move on?  
Don't you think you should move on?
