I can remember when we first met,
We really had some times.
When the Success started to Kick in,
Life turned into a mess.

(Chorus)
Why cant we still be friends?
Why judge me for what I am?
Cant we go back again?
I'm still the Same Man.

You figured out really who I am,
Dont mention life on that.
Why cant you see me for what I am?
We're Human dont forget that... that.

(Chorus)

Still alone don't follow me around,
Carry me like a crown
Facing life not real (x3)

(Chorus)

Same ... Man (x4)
