You think your smart
your not
its plain to see
that you want me to
fall off
its killing me
lets see
youve got the gall
come take it all

the jury is coming
coming to tear me apart
all this bitching and moaning
come on its on

Im trapped in this world
lonely and fading
heartbroke and waiting
for you to come
we are stuck in this world
thats not meant for me
for me

So what you got
one last shot
it seems to me
that your not needed
come on
its killing me
lets see
youve got the gall
come take it all

the jury is coming
coming to tear me apart

all this bitching and moaning
come on its on

im trapped in this world
lonely and fading
heartbroke and waiting

for you to come
we are stuck in this world
thats not meant for me
for me

come on, its on (x4)

im trapped in this world
lonely and fading
heartbroke and waiting
for you to come
we are stuck in this world
thats not meant for me
for me

im trapped in this world
lonely and fading
heartbroke and waiting
for you to come
we are stuck in this world
thats not meant for me
for me
for me
