So what's with your kind
you scavenge to find what makes you
Supreme in design
accuse you cause they had the fun
so differently divine
when my mind goes override
It's so typical
to capture anonymity
I choose the crowd to divide

CHORUS:

So you see i try
I cannot ever displace
you see i'm jaded at times
from nowhere leaving this place
So you see me die
right in front of your face
you see i'm jaded at times
from nowhere leaving this place

They made us with a tool
then they taught us how to live
we met the candyman
he filled us with his contraband
then they scared us all away

while you're visiting your bubble of reality
salivating at the sound of the bells
i'll be seducing you through your confession
they've been the ones you've known forever
someone's been lied to
with all the rage
caught us dismal at times
we've known forever

CHORUS

You've been denied of supervision
just a test tube life away
how could you make believe that we've
grown through circumcision

when it's right here next to me
friendships change to time
they'd never let us leave
you took your time so too late
missing what you've never had
i'll be the only one that knows
just how we've been abused

CHORUS
