It's so fucked I am here doing this
It's bullshit, things don't end like this

I'm calling,
Staring into this place,
Where I cease to exist,
Wondering, why do things always end up like this

Chorus:

Jon: Fly
Take to the sky another dream of empty
Jon: Lies
Of promises denied by a forgiving
Jon: God
Who eats his young you're nothing you fucking
Jon: Fraud
My belief was betrayed I lost my faith in you
Jon: Try
To understand the sorrow and the
Jon: Why
Of a light that should still be burning
Jon: Bright
The angel in flight with a dog by his
Jon: Side
When you took him away I lost my faith in even you!!

It's so fucked I am here doing this
It's bullshit, things don't end like this

I'm calling,

Of a light that should still be burning
Jon: Bright
The angel in flight with a dog by his
Jon: Side
When you took him away I lost my faith in even you!!

As I feel emptiness growing in my heart
I can't help but scream into hating you
I bet you think it's funny
You give us a gift and then you take it back

Chorus:
Jon: Fly
Take to the sky another dream of empty
Jon: Lies
Of promises denied by a forgiving
Jon: God
Who eats his young you're nothing you fucking
