Here it comes

Once again

Irrational

I give in

Paranoia

Expands within

Little voices start to begin:

Everyone's out to take your joy away

Constantly scheming to keep us at bay

Everyone's plotting and they are just taking

You must make it stop

Make them pay

Sometimes I just take things

Way too far

Irrational feeling

I just try too hard cause

What goes up, must come down

The problem is I have no bounds 'cause

Sometimes I just take things way too far

Reality is surreal

Wretchedness is all I feel

Now it's really just a way

God, I hear the voices say:

Everyone's out to take your joy away

Constantly scheming to keep us at bay

Everyone's plotting and they are just taking

You must make it stop

Make them pay

Sometimes I just take things

Way too far

Irrational feeling

I just try too hard 'cause  
What goes up, must come down  
The problem is I have no bounds 'cause  
Sometimes I just take things way too far

Wooohoooo! Wooohoooo! Wooohoooo! Wooohoooo!

Sometimes I just take things  
Way too far  
Irrational feeling  
I just try too hard 'cause  
What goes up, must come down  
The problem is I have no bounds 'cause  
Sometimes I just take things way too far
