"Let Me Be"

Visit "[Let Me Be](#)" on MotoLyrics.com

Mmmm

You know you brought it home to me once more

Ooh

You know I won the battle but I lost the war

I'm not the same

Since you got a hold on me

And you burned me, baby burned me

My heart ain't my brain

If it was I know I would do, I would tell you, I would say

CHORUS

Let me be

Let me be

If you want to love me

Babe you got to give me some more

I can see

I can see

BRIDGE

That everybody little sure that I want to love you

Everybody little sure that I got to love you

I never learned

I keep holding onto you

And you hurt and you hurt me

So bad

I could say

I gotta get away from you gonna lose you, gonna lose

CHORUS

That everybody little sure that I want to love you

Everybody little sure I got to love you,

Got to love you, got to love you, got to love you

Dreams often change

But I want to keep mine

It's a bad time just to throw them away

Everyday

I'm think I'm gonna leave you but I stay here and I stay

CHORUS

That everybody little sure that I want to love you
Everybody little sure that I got to love you, got to love
you, got to love you, got to love you

CHORUS

That everybody little sure that I want to love you
Everybody little sure that I got to love you
Everybody little sure that I got to love you

CHORUS

That everybody little sure that I want to love you
That everybody little sure that I got to love you
