I've had enough of it  
This shit will stick  
You know you make me sick  
Come on fix your trick  
Or hit the grit

This paperwork  
Is driving me insane  
How am I supposed to work  
Knowing that you're playing with  
My life like a game

I've had enough of it  
This shit will stick  
You know you make me sick  
Come on fix your trick  
Or hit the grit

I've had enough of your lies  
I've heard all them before  
You're playing with my life  
Be the sign on the dotted line
