Ages Lyrics

Artist(Band):Kosheen

15 years of precious time behind us
7 years before our child is gone
Everything precariously balanced
The slightest breath can turn it upside down
And it took us ages
To create
And we fill up the pages
Take it down in a day
Take it down in a day

In a day you smell the turn of summer
In a day the winter had begun
In a day I became your lover
In the morning all this will be gone

And it took us ages
To create

And we fill up the pages
Take it down in a day
Take it down in a day

15 years of precious time behind us
7 years before our child is gone
Everything precariously balanced
The slightest breath can turn it upside down

And it took us ages
To create
And we fill up the pages
Take it down in a day
Take it down in a day
