The room is closing in
And you can cross the floor
The music drives you
Sends you climbing walls

The tears of recollection
Are left across your face
There are some lies you put there
And some you arrange

Just don't wanna come over
Can't seem to love one another
You wanna run and take cover
Your silence hides you from the inside

Just don't wanna come over
Can't seem to love one another
You wanna run and take cover
Your silence hides you from the inside

You'd better get awake now
It's time to stand up tall
I can touch you
So far behind walls

And see the sun is rising
In an almost perfect sky
See how far we travel
And how hard we try

Just don't wanna come over
Can't seem to love one another
You wanna run and take cover
Your silence hides you from the inside

Just don't wanna come over
Can't seem to love one another
You wanna run and take cover
Your silence hides you from the inside

Inside, inside, inside, inside
Inside, inside, inside, inside

Inside, inside, inside, inside

Just don't wanna come over
Can't seem to love one another
You wanna run and take cover
Your silence hides you from the inside

Just don't wanna come over
Can't seem to love one another
You wanna run and take cover
Your silence hides you from the inside
