Cool head get ready
You're dead serious
Your dark disposition has arisen
My intuition
She'll pull you to pieces
Scatter you across the water
Who's gonna pull you together
Pull you together

Down down down dangerous
Down down down dangerous water
Down down down dangerous
Down down down dangerous water

One day you'll discover
If you lay still
It'll all pass over
One move, and you're finished
One taste of her poison lips
Will take you under
Where you'll be silenced forever

Will take you under
Silenced forever

Down down down dangerous

Down down down dangerous water
Down down down dangerous
Down down down dangerous water

Cool head get ready
You're dead serious
Your dark disposition has arisen
My intuition

She'll pull you to pieces
Scatter you across the water
Who's gonna pull you together
Pull you together

Down down down dangerous

Down down down dangerous water
Down down down dangerous
Down down down dangerous water

Down down down dangerous
Down down down dangerous water
Down down down dangerous
Down down down dangerous water
