Momentary sensory paralysis  
Moments cut like shards of broken glass  
Somewhere between sublime and the ridiculous  
Is where we go to mend a broken heart  
Feeling like a child and looking like a man  
You wanna make it right, feel like you can't

Out of this world  
Out of our hands  
Out of control  
This beauty unfolds again and again  
Out of this world  
And into the blue  
From me, from here to you

Not the best of times to give up anything  
Least of all this love affair with life  
We're so close together, yet so separate  
Couldn't realise it if we tried  
Feeling like a child and looking like a man  
You wanna make it right, feel like you can't

Out of this world  
Out of our hands  
Out of control  
This beauty unfolds again and again  
Out of this world  
And into the blue  
From me, from here to you
