"Wish You Were Here"

Visit "[Wish You Were Here](#)" on MotoLyrics.com

This century
Is caused by reckless handling
And causes insecurity
Distance isn't good for me
Memories far past and done

And I wish you were here
And I wish you were here

Into me, driving the reality
Rolling right up over me
I'm not aware I want to be
By your side

And I wish you were here
And I wish you were here

I wish you were here
I wish I could change
Turn around the time
Rearrange the play

Even though you're near
You seem so far away
You seem to disappear
From sight and sound
Ain't gone again

And I wish you were here
Ah, ah, ah, ah, ah, here
