Bored in America, we've got nothing to do,
We're just tired of being labeled the useless youth.
The media destroys the masses' minds.
Wasted youth waste of time.
I think it's time they hear our battle cry.
Bored in America.
We've just got nothing to do!
Bored in America.
They teach us to hate each other.
I don't care what race you are or what religion or color.
The media destroys the masses' minds.
Wasted youth waste of time.
I think it's time they hear our battle cry.
Bored in America.
