[Johnny Richter:]

Come, come, come, come, come here
Let's walk & talk so we can hear each others side
You huff & puff & stuff & seem to think that you're
alright
We try to see eye to eye but the truth there is no
compromise
You staring at the moon we lookin up at the sunrise
So come please take my hand & try to understand
That what you're really afraid of is just a little plant
That comes from the earth with water sunlight through
love
Unless you growin hydroponics indo then it's some
tubs or buckets
Fuck it's sticky big ole nuggets we love it & you can
suck it
If u out there hatin on me in public cause I'm
Above it man I'm like a bird in the breeze
Smokin my trees me & weed as high as can be
Can anybody hear me, does anybody feel what I'm
sayin &
Is there anybody out there who feels freedom from
sayin
Can anybody hear me [x5]

[Chorus:]

You say it's wrong but feels so right
When I rip my bong or hit my pipe
You wanna lock me up and lose the keys
I wanna live in peace and smoke my weed

[Daddy X:]

Can anybody hear me
Can anybody hear me
How these years go
Times just flyin by
All the times we spent
Doin shows and gettin high
I can't lie I feel blessed
Just to be alive on the frontline
I saw some friends and family die

So many times I think how life could have been
If I could afford to be an upright citizen
I never been that type to believe the hype
I been grimy hardcore almost all my life
I like pushin limits walkin on the edge
I love the feelin when the ganga seeps into my head
So in my dyin days I don't want no regrets I wanna
Go out blazin

[Chorus:]

You say it's wrong but feels so right
When I rip my bong or hit my pipe
You wanna lock me up and lose the keys
I wanna live in peace and smoke my weed

[D-Loc:]

Another day another session
Time to get it go & show em
Smoker that's how we live n love n burn em tokem
So let me tell you that it feels so good
When I light my chronic I'm always on the smoke
Here comes the time to flaunt it flaunt it
When I got it never don't got it got it ochiee walla walla
holla
So I always got the ganga ganga you know the plant
Damn it's nothin but love it never do us no wrong and it
makes
The people feel strong an if ya hear me then ya hear
me
Come on an sing along an if ya hear me
Then ya hear me come on an sing along
I wanna live my life in peace up under the trees
With my family in the oregon breeze

You say it's wrong but feels so right
When I rip my bong or hit my pipe
You wanna lock me up and lose the keys
I wanna live in peace and smoke my weed
